

ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE REGULATORY CONTACT RECORD

Date/Time: February 20, 2003/ 2:30 p.m.

Site Contact(s): Ted A. Hopkins
Phone: 303-966-7652

Regulatory Contact: James Hindman
Phone: 303-692-3345

Agency: CDPHE

Purpose of Contact: Approval to store liquid RCRA wastes in Modules A, B, D, and E of Building 707.

Discussion

Rocky Flats Environmental Technology Site (RFETS) has submitted a Reapplication of its RCRA Permit to CDPHE for approval. Once approved this document would govern RCRA operations throughout the site. One example of the changes that this Reapplication would allow is the storage of liquid RCRA wastes in Modules A, B, D, and E of B707. In anticipation of CDPHE's approval of the Reapplication, B707 personnel have been planning to repack a number of legacy containers that contain liquids. Repack operations for legacy wastes in B707 are scheduled to start the week of February 24th. A repack enclosure is being constructed in Module A. However, CDPHE has not yet completed its review and approval of the Reapplication.

In order to expedite the repack of these legacy wastes, Mr. James Hindman, CDPHE, has agreed to our request to allow for the interim storage of liquids in Modules A, B, D, and E of B707 provided:

- Container Storage in these Modules must comply with all applicable requirements identified in Part III and Part VII of the Reapplication Permit; and
- This approval would terminate once the new RFETS Permit is issued. RCRA operations after that date would have to comply with all requirements identified in the Permit.
